

instant tips

AT A GLANCE

Instant Tips is our industry-leading electronic tips disbursement solution that allows restaurant organizations to pay employees their tips, securely and instantly, with just the click of a button — all without the burden of fees.

Instant Tips is the easiest, fastest and safest way for restaurants to pay out employee tips each day.

Drastically reduce house bank and the costs to manage.

Maintains a **clean, auditable trail** for reconciliation.

Gives your employees peace of mind to know they - and their money - **are safe**.

An organization of **100 locations** could save over **\$240,000** annually.

Every year, Instant moves over **\$1 billion** to employees of America's leading restaurant brands, all without fees. Let us do the same for you.

WHY CHOOSE INSTANT TIPS?

EMPLOYEE SAFETY

Your valued employees no longer have to worry about carrying cash home with them at the end of their shift, especially at night, giving them complete peace of mind. And your management staff no longer have to worry about tip logs or transporting large sums of cash to and from the bank each day, ensuring everyone within your organization has another layer of security.

REDUCE CASH REQUIREMENTS & SAVE TIME

With Instant Tips, you'll significantly reduce the amount of cash your restaurants need to have on hand, and you'll save all the time and money typically associated with the manual processes of counting and distributing cash to your team. The time savings associated with checking out servers and counting cash can be allocated to tasks with higher importance.

NO INTEGRATIONS

Instant Tips requires no additional integrations with third-party systems, meaning you can be up and running in no time, and your teams don't have to worry about the pain and confusion in trying to manage multiple technology systems. You just need access to the internet to work with Instant.

ATTRACT TOP TALENT

Running a restaurant is hard enough. With Instant, you can immediately differentiate yourself from your competition and become a local employer of choice by offering employees a chance to get their tips the same day they work, all without the burden of fees.

IMPROVE ENGAGEMENT AND RETENTION

Access to same-day tips is a proven driver of employee engagement and retention. By offering your restaurant staff the opportunity to get immediate access to their hard-earned tips each time they work, you're setting your organization up for a sustained period of improved employee engagement.

BOOST YOUR BOTTOM LINE

With Instant Tips, you reduce the costs typically associated with cash tips processes, while driving down your costs of recruiting, training and onboarding new employees. All of this contributes to increased profitability for an industry already operating on razor-thin margins.

HOW DOES INSTANT TIPS WORK?

- 1 Your employee completes their shift and clocks out like they normally do
- 2 Your manager calculates the day's tip payment pool
- 3 All employee tips are loaded to their account directly within the Instant app
- 4 Employees get a notification instantly that their tips are available, free of fees
- 5 Employees pay for things they need right away, using the Instant card

DON'T TAKE OUR WORD FOR IT

Kevin O'Bold
Ultra Steak Inc., VP of Finance

“

Our company has found great value in using Instant Tips. We would highly recommend implementing it into your business!

Our operators can streamline payments to employees, reduce cash handling and it provides a safe, effective way to fund our employees on a nightly basis. Its state of the art technology provides a clean audit trail and is very user friendly.”
